

Media, Reviewers, and Bloggers

Tyndale House Publishers is a subscriber to NetGalley, a new online service for the electronic delivery of galleys and press materials. It provides us with the wonderful opportunity of distributing these materials to the media electronically and saving thousands upon thousands of pages of paper.

No Charge

What's great about NetGalley is that you will be able to register and use this service to view new titles from Tyndale at no cost. You can read galleys online, download PDF versions, read on your Kindle or Sony Reader, and search within galleys.

A Variety of Information

Through NetGalley, you can view marketing materials, book trailers, photos, author bios, cover art and more.

Save Paper

Plus, NetGalley will reduce our environmental impact by utilizing digital content to get our titles into your hands faster!

(A limited number of hard copy galleys may still be available upon request, and finished copies will also be available upon request.)

Share Reviews

You can tell us if you've decided (or declined) to review one of our books – as well as share the review itself with us – all within NetGalley.

If you request a book through the [Tyndale Blog Network](#), you will still be required to submit the review to us through the site.

Register for FREE!

Visit www.netgalley.com to register and request to view Tyndale House Publishers galleys. Find our titles by searching for Tyndale House Publishers in the public catalog area.

Questions?

For inquiries about Tyndale House Publishers, our authors and titles, or NetGalley, please contact bloggers@tyndale.com.
